BALTIMPORE, March 30 .- The Manufacturers' Record in its weekly review of the business conditions of the South, says: In surveying the whole field of southern business enterprises it is seen that while here and there weak points are found, some interests and some sections showing no material improvement, yet the general situation slowly but steadily grows better. No one city, and in fact, no one State makes any freat showing of improvement when taken by itself, but Mr. Polk Miller arrived last night from New York on the Florida special and says, in reply to my inquiry as to the nature of his trip, that he delivered his "rectial" before the St. Nicholas Society for the preceding three months, being a gain of 225.

The railroad outlook is encouraged by the announcement that the majority of Richmond Terminal security holders are Richmond Terminal security holders are in favor of the present reorganization plan. Work on about twenty-five miles of a new line has been started in Georgia, and on an important road in Texas. A group of thirty-six southern roads report increased net earnings of \$125,372, or 7.32 per cent, for January. This is the only section of the country showing an increase, except the coal roads. The txincrease, except the coal roads. The extent of the immigration movement, as shown by reports elsewhere, indicates a steady increase in the scuthward trend of population. Land in lots of 10,000 acres and upward is being purchased in North Carolina, Florida, Georgia, and other States for colonies of settlers.

Among the new enterprises noted by the Manufacturers' Record this week are the Manufacturers Record in week are the following: A rice factory, a machine works, a gold mining company, and a fruit growing company in Georgia; a brick-making plant, a gold mining company, a flour mill, and two water-works systems in South Carolina; two lumber manufacturing plants, and a coal mining company in Tennessee; a \$100,000 silk making company, a furniture factory, a barrel facpany, a furniture factory, a barrel fac-tory, a real estate investment company, and a \$159,000 gold mining company in Virginia; a coal mining company, own-ing \$,000 acres in West Virginia; a grist mill and a \$159,659 mining company in Texas; a \$100,000 lumber company in Louistana; a phosphate mining and manufac-turing plant, three eigar factories, and a canal in Florida; a wood-working plant and a flour and meal mill in Kentucky,

NEW YORK, March 30.—The stock market to-day opened ateady, then decined on account of sharp attacks by brokers usually identified with the Cammack interest, and finany auvanced sharply, because the raids of the bears faned to distodge long stock, forcing the shorts to cover, with the usual result of higher prices all round. London did little or nothing, and as for news affecting the market, there was none. The bears yesterday were quite confident of being able to start liquidations. They interpreted the veto of the secanorage bill as meaning another free silver crusade, and dwelt upon the evins that were to follow. Expecting to disturb continence, they soid heavily of the Grangers and certain of the industrials, naturally with the nope of getting back their contracts at a profit. The plan was well conceived, and would have been successful if holders of stocks could have been frightened into sensing, which they refused to do. In consequence, the bears, after the assault early in the day, when laittimore and Ohio was forced down to Si's, Western Union to Si's, S. Sugar to SS's, and General Electric to 41%, without bringing out any stock to speak of made a complete change of front. This was discovered by the bulls, and the efforts of the shorts were impeded at every point. Again efforts of the shorts ery point. Again was much smaller point of the day was per cent. CHICAGO.

CHICAGO. ILL. March 30.—The south-west played in important part in the wheat market fo-day. They sent numerous reports of crop damage and qualified them by buying wheat. The market opened firm, but eased off shortly after, later becoming strong and scoring a good advance, a portion of which was lost before the close. May opened at 60%c; declined to 50% \$2.50%c, advanced to 61c, receding to and closing at 60%gc, a net gain of \$60%c for the day.

Corn—What little action in this market was within a range of 1978c, and was upward or downward, as the fluctuations in wheat took place. May opened and closed at the final figures of yesterday—37%c.

Closed at the linal ngules of yesters

The business was so small that no attention was attracted to the market.

Provisions—Pork was the strongest of the hog products. The packing season is over and stocks are very light. The opportunity for manipulation is considered very favorable. Lard and ribs were less firm, in fact, they dragged. At the close May pork was 325c, higher, May lard 5c, higher, and May ribs 10c, higher.
